## **Highest Level of Education**

University of Windsor – Civil/Environmental Engineering Degree – **Graduated October 13, 2018**  
Study Focus – Structural Design (Steel, Concrete, Masonry and Wood Design)

## **Qualifications:**

- Eligible to become an EIT
- 5+ years' experience in construction management (overseeing residential projects)
- Excellent knowledge of construction trades, and good understanding of drawings and specifications
- Familiar with the OBC, and design aids of structures (steel, concrete, masonry, and wood design)
- Advanced level proficiency in all Microsoft office programs
- Adequate knowledge of AutoCAD 3D and STAAD pro
- Excellent communication skills, both verbally and written
- Outstanding customer service, time management, organization skills and have great attention to details
- Team player, hardworking and eager to learn and grown in my field of study

## **Experience:**

**Company name:** PDB inc. - (Plan, Design, Build)

**Position:** Owner

**Employment duration:** 04/2014 – (still operating)

**Responsibilities, skills, and experience encountered:**

- Planning jobs from start to finish, making sure everything is done on time and delivered on schedule
- Designing according to the OBC and design handbooks, as everything gets inspected by City Inspectors
- Hiring staff and training them, leading by example and delegate tasks accordingly
- Obtaining permits for jobs and design drawing according to the OBC, also passing inspections and protecting against liabilities
- Building a profitable business and managing costs
- Securing contracts, providing clients with fair quotes, overseeing jobs from start to finish, providing quality assurance and most importantly building a great, healthy, and growing reputation

**Company name:** Superior Engineered Wood Products

**Position:** Designer, sales representative

**Supervisor/owner:** Ken Harris

**Employment duration:** 4 months

**Reason for Leaving:** School

**Responsibilities, skills, and experience encountered:**

- Design and build roof trusses according to drawing and wood design handbook
- Inspect the materials used (Swan Lumber) before building to ensure strong durable structures
- Learning all types of roof trusses assembly before designing
- Inspect final construction for roof trusses to ensure it is done properly and according to drawings
- Maintain a clean, and safe environment in my work area
- Having a great understanding of what I'm designing and selling (know your products)

**Company name:** Call it Spring (ALDO)  
**Position:** Assistant Manager  
**Supervisor/owner:** Lauren Dau  
**Employment duration:** 12 months  
**Reason for Leaving:** School/previous employment

**Responsibilities, skills, and experience encountered:**

- Managing sales, inventory and cost (when manager is not present)
- Preparing weekly schedule and tasks
- Assist in training and supervising
- In charge of opening and closing operations
- Lead sale representative
- Team leader, dedicated and enthusiastic of my work environment
- Having knowledge of products being sold

## **Volunteer Experience:**

### Charity Event - (Windsor Spotted)

- Every year my team does a water balloon toss event and we donate to the Ronald McDonald House

### Army Cadet Core 2828

- My last Rank before I started school was a Sargent

### Special Events for kids in need - (trips4u) – (one of my hobbies)

- We do seasonal trips for kids that can't afford expensive trips like graduation, or spring break. We make trips that are as fun but extremely affordable.
- We also do events and march in municipal parades
- Also, we do events and trips for the University of Windsor

### Municipal Olympics

- Helped organize and run the annual Olympics that my City does for kids in need
